**Cc:** Sens. Marco Rubio (R-FL) and Rick Scott (R-FL) ; U.S. Rep. C. Scott Franklin (R-FL-15)

**Cc: Selected Congressional EMP Taskforce members** (Reps. Yvette Clarke, D-NY-09, Doug Lamborn, R-CO-05, Ed Perlmutter, D-CO-07, Sens. John Hickenlooper, D-CO, John Barrasso, R-WY) <<<NOTE: While these lawmakers are not my lawmakers, I am including them as my friend, Glenn Rhoades, Natl Dir of EMP Taskforce, asked – and in order to ask \*my\* lawmakers to cooperate with them, and to cc keep them in the loop.

**Cc:** Fla. State Senator Danny Burgess ; Fla. State Representative Lawrence McClure, etc.

**Dear Gov. DeSantis and staff, and State and Federal lawmakers in the cc line:**

**\*\* INTRO:** It has come to my attention that my friend, Dr. Peter Pry, Executive Director of the EMP Task Force on National and Homeland Security (a Congressional Advisory Board dedicated to protect from electromagnetic

pulse (EMP), cyber-attack, mass destruction terrorism, etc.) has been helping you write an executive order to help protect Florida against EMP attacks and related threats. **(See below.)** A quick look at your website, <https://www.flgov.com/2021-executive-orders/>, shows EO's only up to your 11/8/2021 EO to suspend Medley, FL Councilwoman, Ana Lilia Stefano.

**\*\* SEGUE:** You may remember that I contacted your office on Oct. 28 of this year to provide your regional director, Leanna Himrod, with some anti-cancer research I have compiled -- so that you could help your wife beat breast cancer, and so you all might share it with Floridians and help others. (*I'm battling Prostate Cancer, myself: <https://GordonWatts.com/MedicalRecords> OR: <https://GordonWayneWatts.com/MedicalRecords> MY RESEARCH: <https://GordonWatts.com/consumer.html> OR: <https://GordonWayneWatts.com/consumer.html> SEE ALSO research from a friend of mine: <https://gordonwatts.com/#montague> or <https://gordonwaynewatts.com/#montague> Kevin F.F. Montague -- and I expect to beat my cancer soundly -- and hope to help you and your wife as well.*) Also, as you recall, I asked you to advocate on behalf of Florida regarding how Federal student debt exceeds Florida's annual "State" budget, a threat to our economy (like you advocated about other "federal" issues dealing with vaccine and mask mandates), e.g., use of bankruptcy defense bill S.2598 as a free market check to "tamp down" excessive Liberal pork spending, thus saving tax dollars and forcing tuition down. Lastly, while S.2598, the student loan bankruptcy bill sponsored by Sens. Dick Durbin (D-IL), John Cornyn (R-TX), and Josh Hawley (R-MO) may seem "unrelated" to this subject matter, it is not: Without this bill to "tamp down" excessive pork spending in higher ed loan subsidies, we will not be able to afford the GRID upgrades outlined below. Nothing else has worked, so I respectfully ask you to try it my way this time: <https://www.Congress.gov/bill/117th-congress/senate-bill/2598/cosponsors> Cf: <https://www.Congress.gov/bill/117th-congress/house-bill/4907/text> a related bill that is needed here.

**\*\* CONCLUSION:** While those are important issues, nonetheless, for the sake of brevity, I will keep my email to you and my lawmakers brief and to the point of one subject: Since you may also remember that I'm also advocating for state/federal lawmakers to protect the grid (see e.g., <https://ContractWithamerica2.com/#grid> my flagship trademark, addressing this & other matters), I feel it only appropriate to afford you with some helpful research so you and my state & federal lawmakers would know what to do. In short, I see three (3) key threats:

- 1.) Electromagnetic pulse threats: Solar Super storms like what knocked QUEBEC POWER offline, back in 1989, thus stopping 911, Internet, Power, emergency services, etc., as well as EMP and HEMP attacks by rogue nations.
- 2.) Cyber-hacking
- 3.) Physical threats to facilities (reminding us of the need for cameras, fences, security, etc.)

To that end, please see the 3 attachments in my email, here:

- 1.) Dr. Pry's book: **"BLACKOUT WARFARE: Attacking The U.S. Electric Power Grid A Revolution In Military Affairs,"** by Dr. Peter Vincent Pry, With An Introduction By Dr. William R. Graham and Ambassador R. James Woolsey, Copyright © 2021 Peter Vincent Pry, ASIN: B09DFK4RY (KINDLE), LINK: <https://www.Amazon.com/-/en/Dr-Peter-Vincent-Pry/dp/B09DFK4RY>

**IMPORTANT NOTE:** This book is copyrighted, and I may not be able to publish on my website, CONTRACT WITH AMERICA: PART II(tm), linked above -- if that's the case, and, if for any reason, Dr. Pry didn't provide you with a copy of his book, do know that he's asked others to do so -- and I'm doing so now.

- 2.) A copy of my published scientific paper, **"Probability estimation of a catastrophic Carrington-like geomagnetic storm: Re-evaluated in new light of upcoming Maunder Minimum and recent decreases in geomagnetic field, after recent studies came to conflicting conclusions; Proposed solutions for citizens and lawmakers,"** by Gordon Wayne Watts, A.S. United Electronics Institute, Valedictorian; B.S. The Florida State University, Biological & Chemical Sciences, Double major with honours, ACADEMIA, Published 10-2-2019; Last updated 10-5-2019: [https://www.Academia.edu/40529432/WATTS\\_SolarFlarePAPER](https://www.Academia.edu/40529432/WATTS_SolarFlarePAPER)

**IMPORTANT NOTE:** While Dr. Pry's paper is very comprehensive, I notice it didn't say much about solar flare threats; my paper addresses that and provided proposed solutions in the closing section.

- 3.) A list of supporters for these needed upgrades -- including both selected lawmakers and some of your constituents. I don't feel I should even need to provide such a list, but I understand the "political realities" that you

face as governor (and that my lawmakers in the cc line face), and I feel that this will be helpful in convincing any potential opponents to cooperate.

**IMPORTANT NOTE:** While it will cost billions to do what we ask, it would cost Trillions -- much, much more -- to recover from the damage inflicted by a solar super storm, EMP or cyber attack, or likewise. Besides the infamous solar storm of March 1989, which inflicted major damage to Quebec, Canada's power grid, causing a 9-hour blackout when transformers were overloaded and failed, leaving more than 6 million Canadians without power, let's not forget that another solar storm hit Canada, as well as the northeast United States, in August 2003, causing wide-spread blackouts, this time jamming the short-wave radio frequencies used by commercial pilots, prompting contemporary observers to speculate that the Kremlin was jamming radio signals. "In space, some satellites actually tumbled out of control for several hours," NASA said.

More recently, the "Solar Storm of 2012," documented to have been even larger than the largest previous solar storm in recorded history, almost made a "direct hit" on earth, narrowly missing only because earth had moved about nine (9) days [about 2.46% of earth's 365¼-day orbit] in solar orbit from its trajectory. As earth's 'magnetic north pole' accelerates its erratic movement, earth's protective magnetic field has begun to speed up its collapse, which would leave us completely vulnerable to another solar flare event. I know my email, here, is a "bit long," but please bear with me: The threats we face are grave. I will be glad to provide you with any technical advice, help crafting legislation, and/or analysis from my education and experience here: I was the valedictorian of my college electronic class.

Dr. Pry has informed me in a prior communication that the current (Federal) infrastructure bill has not allocated any outlays to fund Pres. Trump's recent Exec Order on EMP attack protection, only funding for studies/research. As a result, I shall cc copy my Federal lawmakers -- and, as your Nat'l Director, Glenn Rhoades has asked, also include cc copies to selected Congressional EMP Taskforce members, such as Rep. Yvette D. Clarke (D-NY-09) and Rep. Doug Lamborn (R-CO-05).

I am now directing my own lawmakers (Sens. Rubio and Scott and Congressman Franklin) to work closely with Representatives Yvette Clarke (D-NY-09), Doug Lamborn (R-CO-05), and other members of the Congressional EMP Taskforce. These lawmakers are -- in my estimation -- national treasures and national heroes -- and I ask that my lawmakers tarry not any longer: Please seek advice from the EMP Taskforce lawmakers or members and enact legislation herewith, and/or as outlined in the "key legislation" section of <https://ContractWithamerica2.com/#grid>, and, please cut unnecessary pork spending to make this possible. As I know lawmakers of both parties have struggled with this for ages, please "take to heart" my advice that S.2598 and H.R.4907, the two "student loan bankruptcy bills" will likely be needed to "tamp down" excessive pork spending in higher ed subsidies (not into the trillions) to avert a crash of the dollar and to "free up" needed funds to make these key infrastructure upgrades. **With kind regards, I am,**

**Sincerely,**

**Gordon Wayne Watts, constituent in Fla. Congr. Dist. 15 (full contact data below -- see also attached)**

On Wed, Nov 17, 2021 at 11:19 AM Peter Vincent Pry <[peterpry@verizon.net](mailto:peterpry@verizon.net)> wrote:

**Gordon—You should ask Glenn about joining the EMP Task Force, so you can work with him and our other colleagues on these matters, seek their advice including at monthly meetings that Glenn organizes. I really can't afford time to oversee or advise on every project, which is why we have the EMP Task Force to help. For example, right now I am supposed to be crashing on a draft Executive Order for EMP protection for the State of Florida, due at 2:00 PM this afternoon. Greatly appreciate your efforts on behalf of our cause, but please work with Glenn. Thanks!—**  
**Peter**

**Subject:** Re: Dr. Pry, can I drop your name as a reference for EMP matters?

**Dr. Pry -- Thank you for taking a moment to speak by phone last night. Anyhow, I called Glenn Rhoades and inquired about being on the EMP task force, as you asked, and he gave me a brief overview -- but he also said that I should have a copy of your book, "The Power and The Light," but was unable to find it on his hard drive, Google drive, or in his received emails.**

**I hate to bother you, but I figure you might have a copy you can email me... [redacted for length]**

**Get Truth.**

**"First, they [Nazis] came for the Jews. I was silent. I was not a Jew. Then they came for the Communists. I was silent. I was not a Communist. Then they came for the trade unionists. I was silent. I was not a trade unionist. Then they came for me. There was no one left to speak for me." (Martin Niemöller, given credit for a quotation in The Harper Religious and Inspirational Quotation Companion, ed. Margaret Pepper (New York: Harper & Row, 1989), 429 -as cited on page 44, note 17, of Religious Cleansing in the American Republic, by Keith A. Fournier, Copyright 1993, by Liberty, Life, and Family Publications.**

**Some versions have Mr. Niemöller saying: "Then they came for the Catholics, and I didn't speak up, because I was a Protestant"; other versions have him saying that they came for Socialists, Industrialists, schools, the press, and/or the Church; however, it's certain he DID say SOMETHING like this. Actually, they may not have come for the Jews first, as it's more likely they came for the prisoners, mentally handicapped, & other so-called "inferiors" first -as historians tell us -so they could get "practiced up"; however, they did come for them -due to the silence of their neighbors -and due in part to their own silence. So: "Speak up now or forever hold your peace!"-GWW**
